JavaScript Courseware

This material is still **under development**.

This page provides an outline for a course on JavaScript that will be taught at Bellevue College during August, 2017. There are two parts to the course:

- The Elven Git Book Courseware
- A series of Exercises

The Elven Git Book courseware comes as a 260 page mini-book highlighting many of the main features of JavaScript and related technologies such as NodeJs and React. The chapters can be found here here:

1. Elven JavaScript Book in HTML
2. Download JavaScript book as PDF
3. Download JavaScript book as EPUB

Other subjects that may be covered include creating Data Driven Documents with D3 js.

General Exercises and Assignments

1. Basic Types
2. Objects
3. Callbacks
4. Functional
5. Function This
6. FactoryBasics
7. Click Route
8. Elf Npm Unit Tests
9. Map Express
10. Map Places

Code Academy

1. CodeAcademy01
2. CodeAcademy02
3. CodeAcademy03
4. CodeAcademy04
5. CodeAcademy05
6. CodeAcademy06
7. CodeAcademy07
